REUSED PAPER STOCK CUT DOWN FROM OLD LETTERHEAD

Ream 500 sheets, 100 gsm

Why make the shift?

- Our forests are our water catchments, carbon sinks, and home to animals and biodiversity.
- Paper use is one of the biggest drivers behind deforestation worldwide.
- Australians still use 1.4 million tonnes of printing and fine paper every year.

**This product is made
from reused paper**

How to use this paper.

- It's simple. Put it into your printer as you would A4 size but re-adjust the guides to fit. You may wish to designate second tray to A5 or use the manual override for A5.
- When printing, go to printer properties, choose 'Effects' and 'print document on A5', then 'scale to fit'. May be slightly different depending on printer.
- You may need to set 'paper handling' on printer to A5 for specified tray.
- For best visual results you may want to increase font size on documents. (ie font size 10 to 16)

So halve your impact!
Join the revolution – print on A5.
