Please place items from home or office in the box for collection

By recycling these items you have contributed to the sustainable use, recovery and reuse of resources. This involves diverting these materials from landfill by recycling them for another use or for reuse of components in remanufacturing.

Green Collect is a social enterprise that works together with businesses to achieve positive environmental and social change. Through delivering innovative recycling and waste minimisation solutions, Green Collect creates new opportunities for employment and community building.

As a social enterprise, Green Collect offers work and training opportunities to people who have experienced barriers to employment. By creating jobs that are accessible and sustainable for people experiencing social and economic disadvantage, Green Collect works with businesses to build a more inclusive community.
